

Project Hazard Assessment

Project _____

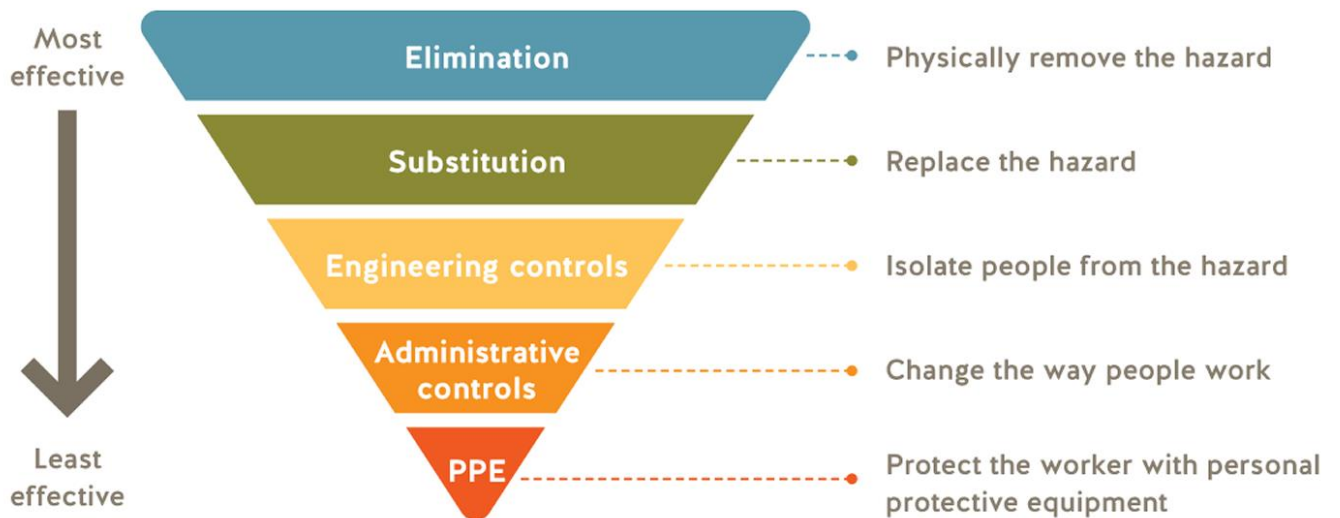

Assessment Date _____

Author _____

Purpose

- Create awareness of hazards
- Identify who may be affected
- Determine what controls are needed, or whether existing ones are working
- Prevent injuries or illnesses, especially when done early.
- Record responsibility for controls

Hierarchy of Controls

Project Hazard Assessment

Project _____

Assessment Date _____

Author _____

<p>Task or Work activity Be specific. You can describe part of a task or activity.</p>	<p>Who might be affected or exposed to the hazards? Is it a single worker or more than one? Is it a single scope of work or will the hazards affect others?</p>
<p>Hazards How could you or another worker be injured?</p>	
<p>What is in place now to prevent you or others from getting hurt? List the current controls. Indicate if there are none?</p>	
<p>How could it be made safer? What should be done? Are existing controls working? Are they sufficient?</p>	
<p>Who is responsible for the control measures? Identify the person and title responsible or accountable for the action.</p>	<p>Action completion date (YYYY/MM/DD)</p>
